Director – Operations.

Subrat Padhi

Director – Business Development.

Contact Us

Let's build a safer, smarter tomorrow.

About ARMUKT

Built by Industry Veterans.
Designed for Mission-Critical Environments.

ARMUKT combines defence intelligence, enterprise infrastructure, and entrepreneurial execution to deliver integrated technology solutions through an innovative **OPEX-first** model.

OUR VISION

To be India's most trusted technology integration partner — making advanced technology accessible to every enterprise through sustainable OPEX models.

OUR MISSION

Deliver customised, innovative software and hardware solutions leveraging the latest technologies including AI, as end-to-end integrated services.

WHY ARMUKT

Founders combine security intelligence, IT mastery, and entrepreneurship. We stake our reputation on outcomes through managed services and guaranteed SLAs.

OUR APPROACH

Military-grade discipline + enterprise technology expertise. Every engagement begins with thorough analysis and ends with long-term performance accountability.

OUR COMMITMENT

Integrity, reliability and transparency drive everything we do. We build long-term partnerships by delivering what matters — secure, resilient and future-ready solutions.

OUR PEOPLE

Veteran leaders. Domain experts. Certified professionals. A culture of ownership, collaboration and continuous learning powers our ability to solve complex challenges at scale.

ARMUKT GLOBAL TECH SOLUTIONS PVT. LTD.

Incorporated: 28 February 2026

Kolkata • Mumbai • Odisha • India

Our Services & Expertise

Seven core technology domains — designed, deployed, and managed end-to-end.

SIMPLIFYING SECURITY. SIMPLIFYING BUSINESSES.

Infrastructure & System Integration

LAN/WAN, switching, routing, storage, access control, power conditioning, cooling, false flooring & humidity control.

AV, Conferencing & RF Communication

IP conferencing (Polycom/ Peoplelink), backhaul RF, in-premises radio, managed WiFi, controllers & bandwidth management.

Managed Services & Operating Lease

End-to-end managed IT & security services, skilled technical staffing, and operating lease eliminating client CAPEX risk.

UAV Solutions & Industrial Connectivity

Purpose-built drone surveillance, AI-powered analytics, and specialised connectivity for remote/high-security environments.

Cables, Media & Technology Support

Industrial-grade cabling, fibre optic, connectivity hardware, and complete technology support across all installation phases.

Scalable Engineering & Integration

Tailor-made engineering covering design, documentation, deployment, testing, certification and post-commissioning support.

Surveillance

AI-powered integrated surveillance delivering real-time threat detection, risk mitigation, and operational efficiency through a flexible OPEX model.

Integrated Solutions. Intelligent Execution.
End-to-End Value.

Lasting partnerships.

Key Differentiators

Why clients choose Armukt over traditional technology vendors

ZERO

CAPEX Required

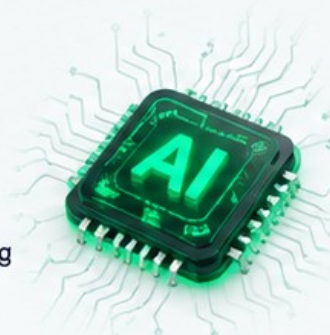

Clients assume no equipment or operational liability. All maintenance, spares & upgrades handled under SLA.

AI

Integrated Core

Predictive analytics, intelligent automation and AI-driven monitoring embedded across every solution we deliver.

98%

System Uptime

Guaranteed availability backed by robust SLA agreements and a dedicated engineering support team on-site.

70%

Theft Reduction

Proven results — AI-powered surveillance reduces attempted theft incidents through proactive monitoring.

50%

Manpower Saving

AI automation replaces repetitive guard activities — perimeter alerts, access monitoring, activity tracking.

100%

Integrated MANTECH solutions

Tech-enabled, professionally trained manpower integrated with AI to enhance efficiency and reduce operational costs.

Six Reasons. One Promise.
Delivering Measurable Value.

Lower Risk
We own the outcome.

Lower Cost
Zero CAPEX model.

Higher Efficiency
AI-powered operations.

Trusted Partnership
End-to-end accountability.

The ARMUKT Advantage

OPEX-first. Zero-CAPEX. Outcome-focused.

SIMPLIFYING SECURITY SIMPLIFYING BUSINESSES

WHY OPEX OVER CAPEX?

**ZERO
CAPEX**

Transform capital investments into predictable operational value.

No upfront investment

Predictable monthly costs

All maintenance, spares & replacements included

Technology refresh without additional cost

Faster deployment and commissioning

SLA-based service commitment & full liability with ARMUKT — not the client

01

DESIGN & CONSULTATION

- ✓ Security Risk / IT Requirement Assessment
- ✓ Site survey & solution architecture
- ✓ BOQ, technical specs & documentation

02

DEPLOYMENT & INTEGRATION

- ✓ Phased execution aligned with operations
- ✓ OEM-compliant certified installation
- ✓ Copper & OFC testing (Fluke-certified)

03

MANAGED OPERATIONS

- ✓ 24x7 remote health monitoring
- ✓ Dedicated on-site engineering support
- ✓ SLA-backed resolution & upgrade cycle

LOWER RISK

We own the outcome.
You stay protected.

LOWER CAPITAL BURDEN

Preserve cash flow.
Invest in growth.

HIGHER ACCOUNTABILITY

We commit. We deliver.
We are responsible.

BETTER OUTCOMES

Reliable systems.
Consistent performance.

FOCUS ON YOUR BUSINESS

Leave complexity to us.
We simplify IT & security.

ARMUKT assumes the complexity so clients can focus on their business.

Designed for Outcomes
